MODERN PUBLIC AFFAIRS REALITY

- The “Information Age” has led to greater transparency of and access to the public policy process.

- Strategic communication today is a proactive and comprehensive approach to bridging an organization’s goals with the stakeholders who are able to affect successful outcomes.

  **ORGANIZATIONAL OBJECTIVES ↔ ISSUE GAP ↔ STAKEHOLDER EXPECTATIONS**

- This has turned policy debates into grassroots campaigns, involving participation from ever-widening groups of primary and secondary stakeholders.

- If you do not have a seat at the table, you are probably on the menu.
WHAT DOES THAT MEAN FOR RAILROADS?

ANTICIPATED 2019 LEGISLATIVE ISSUES

- Creation of a Tax Credit for Rail Infrastructure Upgrades
  - Similar to efforts in the 2017 Legislature (HB 3566 by Ashby) to introduce an 45G-type program to allow for the assignment of franchise tax credits to taxpayers in return for revenue available to invest in infrastructure upgrades in Texas rail operations.
  - The Texas program would hopefully generate $10 million/year for these critical upgrades.
  - Additionally, there will be further efforts to create “Critical Infrastructure Investment” programs that we will work with others to make certain rail infrastructure is included as an eligible expenditure if any of these programs are authorized.

- Opposing Efforts to Allow Heavy-Haul Trucks in the Permian Basin Oil Region
  - In 2017, the legislature (SB 1524 by Nichols) allowed for the creation of a “heavy haul” corridor in the Gulf Coast and Port regions of Texas.
  - The Texas oil and gas and manufacturing industry will seek a similar corridor in the west Texas Permian Basin region.

- Eminent Domain Fight Will Continue and Intensify in 2019
  - There will be continued efforts to limit the use of eminent domain by railroads and other infrastructure providers (HB 991 by Burns).
Bills of Interest as of January 21st, 2019

- HB 709 by Wray – Prohibiting the use of private activity bonds to finance high-speed rail
- HB 742 by Y Davis – Railroad Crew Size Requirements
- HB 71 by Martinez – Creating Regional Transit Authorities
- SB 66 by Nelson – Phases out the franchise tax over a period of time
# Deadline Calendar

In reviewing this calendar, all members should consider, in addition to the stated deadline, the time needed for the preparation of any ancillary documents related to the bill, any printing time, and any applicable layout rule.

**Note 1:** The House rules do not contain an express deadline for committees to report measures, but, technically, this is the last day for a House committee to report a measure in order for the measure to have any chance of being placed on a House calendar. **However,** this deadline **does not take into consideration the time required to:** (1) prepare the bill analysis; (2) obtain an updated fiscal note or impact statement; (3) prepare any other paperwork required for a committee report; or (4) prepare the committee report for distribution to the members of the House as required by the rules. **Realistically,** it normally takes a full day or more for a bill to reach the Calendars Committee after the bill has been reported from committee.

**Note 2:** The House rules do not have an express deadline for distributing calendars on the 120th, 121st, 122nd, and 133rd days.

**Note 3:** The Senate deadline for passing all bills and joint resolutions does not take into consideration the House deadline for passing Senate bills and joint resolutions. **Realistically,** to be eligible for consideration by the House under its end-of-session deadlines, Senate bills and joint resolutions must be passed by the Senate and received by the House **before** the 130th day. Both Senate and House rules require a 48-hour layout for a resolution amendments on a conference committee considering the general appropriations bill, if such a resolution is necessary. Neither rule has an express deadline for considering that resolution, which should occur before consideration of the general appropriations bill.
